

## The promise of a success

**HCMC, October 9, 2009** – 10 months after the beginning of the construction, the Bel Ami is starting to take shape. All the hopes and expectations that have been putted in the boat are finally coming to a reality. The Bel Ami is on the right track toward its completion.

The boat is now in its finishing stage, which represents the most challenging aspect of the construction in order to reach the expectations of such a vessel. All the possible cares are taken in order to build the boat according to the plans and most of all to ensure a perfect finishing, following the trademark of Vuotsong. The Bel Ami is listed as a yacht and consequently requires more attention to details.

The Bel Ami is expected to be launched in March 2010 and to start its first cruise on the Mekong River in the two following months of the same year.

Vuotsong has been operating for nine years and numbers of different kind of boats have already been built for different tour operator or private individual.
