

L'Amant has been launched and makes things a reality

HCMC, May 18, 2009 – L'Amant has been launched at Vuotsong shipyard in the early morning in front of the eyes of the future owner of the boat, after eight months of work. The first cruise is planned for the 20th June 2009.

Eight months of work would have been necessary to Vuotsong Shipyard to build the structure of the boat. L'Amant will be completed on sea for the finishing parts as well as the decoration, and will be ready to go on sea for the first of a long series of cruise in direction of Phu Quoc Island through the Mekong River, on 20th June 2009.

The finalization of this boat represents a big step for Vuotsong and is the proof of the quality and strength of the company. It would have taken less than a year to Vuotsong to finish this 39m vessel.

Vuotsong has been operating for nine years and numbers of different kind of boats have already been built for different tour operator or private individual.

More information about the boat and the cruise are available on the website of Phoenix Cruise, <http://www.lamant-cruises.com/>
